Projects

WEB APPLICATION FOR FINDING NEAREST HOTELS (Wanderlust) | [Github](#)

VIA | HTML, CSS, JS, MongoDB, Node.js, Express.js

- Developed a web application for finding the nearest hotel for stay and users can also list their hotel/property on the websites after creating their account.
- Only registered users can give reviews and feedback about hotels.
- Implemented user **Authentication** and **Authorization** using **Passport.js**.

STOCK EXCHANGE WEB APPLICATION (TRADEHUB) | [Github](#)

VIA | React.js, Javascript, MongoDB, Node.js, Express.js

- Developed a stock exchange platform where trading data is fetched dynamically from a database without external APIs.
- Designed and implemented backend logic to handle real-time stock updates.
- Built an intuitive user interface for easy navigation and stock monitoring.

Joke Generator | [Demo](#) | [Github](#)

VIA | React.js, Javascript, CSS, free Random Joke API

- Built a fun activity web page that gives a random joke after each button click.
- Used a free API to generate a joke and made a user friendly simple user interface.

Extra-Curricular Activities and Achievements

- Volunteer in inter-college fests.
- Participated in Smart India Hackathon 2024.
- Actively participated in college events.

Certification

- Internet of things (IIT KHARAGPUR) Elite + Silver category
- DSA using JAVA (IIT KHARAGPUR)
